020 - 0066 Morioka-shi Ueda 3-chōme 18 - 27 Iwate University International House

Experience

- **Research Scholar at Kim Laboratory, Iwate University, Japan** **Oct 2018 – Present**
 - Working on Deep Learning, Artificial Intelligence, Machine Learning, Image Recognition
 - Language: **Python3** (Keras / Tensorflow)
- **Lecturer, Department of IT, BAC International, Bangladesh** **Aug 2017 – Sep 2018**
 - Courses taught: Data Structures and Algorithms, Web Applications Development, Database Design Concepts, Emerging Technologies, Programming Language C/C++
- **Software Engineer, Edu-Smart, Bangladesh** **May 2016 - July 2017**
 - Implemented web application using **PHP / Laravel / CodeIgnitor / MySQL**
 - Implemented **REST APIs** for Android Application Development

Projects

- **Handwritten Digit Recognition using Tensorflow:** A recognition system which trains a neural network model to classify images of digits. Developed using **Python3 (Tensorflow)**.
- **Edusmart.info:** First ever Education Management System in Bangladesh, used by top schools, colleges and universities. Developed using **PHP, MySQL**.
- **JU Course Advising System:** Course Advising System for Jahangirnagar University of Bangladesh for advising courses of all MBA students. Developed using **PHP, MySQL**.
- **JU Bus Tracker:** Online bus tracking system for JU focusing JU students, teachers in Bangladesh. Developed using **Android, PHP, MySQL**.
- **Line Follower Robot:** A robot that can follow a path in a black line on a white surface. Developed using **C, Pic Microcontroller**.

Skills

- Deep Learning, Machine Learning, AI, Algorithms, Problem Solving, Image Recognition
- **Language:** C++, Java, Python3 (Tensorflow/ Keras)
- **Version Control:** Github, Bitbucket
- Teaching different courses and supervision of final year dissertation
- Mobile and Web Application Development: Android, PHP (Laravel), MySQL, SQLite

Education

- **PhD Research Student in Electrical Engineering and Computer Science** **2018 - Present**
Iwate University, Japan
- **Masters in Computer Science (CGPA: 3.85 out of 4.00)** **2016 – 2017**
Jahangirnagar University, Dhaka-Bangladesh
- **Bachelor in Computer Science and Engineering (CGPA: 3.70 out of 4.00)** **2012 – 2016**
Southeast University, Dhaka-Bangladesh

Publications

- Detecting Human Mood from Physiological Signal and Data, 2018
- An Analysis of Foraging and Echolocation Behavior of Swarm Intelligence Algorithms in Optimization: ACO, BCO and BA, 2018
- University Timetable Generator Using Tabu Search, 2016

Languages

- Bangla (Native), English (Fluent), Japanese (Conversational)
